

Does your program have:

1. Clear philosophy, beliefs, and values that a.) provide guidance to make judgments & decisions and to evaluate the program b.) are fully integrated in the delivery of the program, and c.) promote integrity and sustainability

2. Specific treatment component to promote consistency across implementers

3. Treatment decision making to create accountability

4. Structured service delivery components that include a definition of the location of treatment, staff development systems, and client: staff ratios or staff: supervision ratios

5. Continuous improvement components to help see if the innovation is beneficial to those receiving the services?

(Dissemination Working Group, 1999)
