3Com Corporation

3Com Corporation, the nation's largest vendor of networking equipment to schools, is committed to fostering excellence in education through innovative and simple learning solutions. 3Com's award-winning LAN telephone system, wireless LANs, switches and routers are easy to deploy and manage. Beyond the network infrastructure, 3Com is providing easy access to a library of rich media content and delivering it directly to the classroom with the Media Ease ? learning solution. Using Media Ease, teachers can create dynamic lessons from trusted content, downloading any combination of media to make lessons that can be saved, shared, and updated.
http://www.3com.com/solutions/

8e6 Technologies

8e6 Technologies provides scalable, high-speed filtering and reporting appliances designed to help schools provide a secure learning environment for students and staff and comply with CIPA. 8e6's dedicated R3000 employs Pass-by Technology™, which provides the fastest and most scalable filtering solution available, and doesn't slow down network traffic. The Enterprise Reporter is a stand-alone appliance that reports on Internet usage, generating fast, detailed and customizable reports. And 8e6 is a one-vendor solution, meaning that you never have to call any other number for support.
http://www.8e6.com/education/

A School Decision-Maker's Guide to Student Technology Support Programs

This guide is designed to help school district decision makers define the type of student technology support program best suited to their student and school needs.
http://www.studenttechsupport.org/

AboutSchool.com

AboutSchool.com is designed to improve the education of children, teachers, and parents. Some of the features include links to the best educational sites on the Internet for a wide variety of subjects and age groups, listed in an easy-to-navigate format.
http://www.aboutschool.com/

Academic Technologies for Learning

Academic Technologies for Learning supports the use of technology in teaching and learning initiatives at the University of Alberta. ATL provides training and consultation in instructional design, Web and multimedia production, delivery, distance and distributed learning and evaluation to most effectively use learning technologies.
http://www.atl.ualberta.ca/

Accessible Technologies for All Students

The Accessible Technologies for All Students Project is a leadership initiative of the Consortium for School Networking (CoSN). The goal of this initiative is increased achievement and success for all students through the unlimited and effective use of accessible technologies. It is our core belief that accessible technologies and the close collaboration of assistive technology (AT) and instructional technology (IT) services at the school district level will enhance and facilitate learning for all students - those with disabilities and those without disabilities.

http://ali.apple.com/

AT&T E-rate Information

The site provides information on AT&T E-rate SPINS, processes, contacts and other information
http://www.att.com/erate

BeaconT Translation Services

Professional translation services online at BeaconT.
http://www.beacont.com/

Beaumont Online Teacher Training

Beaumont offers online teacher training courses for using the Internet in the classroom. Teachers who know very little about the Internet and those who feel comfortable using the Internet still have something in common when they are with their students—the feeling of "OK, I'm online. What do I do now?" Whether for primary schools or secondary schools, the introductory courses show how the Internet can be used as a tool for better learning. They show how the Internet is useful in the classroom not because it is there, but because students and teachers can use it to improve the way knowledge is acquired (i.e. as a pedagogical tool).
http://www.beaumontcourses.com/

Campus Management Corporation

More than 900 colleges and universities worldwide rely on Campus Management for efficient, scalable, and flexible administrative solutions that enhance operational excellence. Rapid implementation, proven user training, and superior support services distinguish Campus Management's CampusVueT administrative suites for higher education. Campus Management's commitment to continuously evolving its technology has resulted in a vast, long–term enterprise solution capable of millions of daily transactions, providing real-time operational visibility across departments and multiple campuses. The company has won Microsoft's 2005 award for Best Innovation in Higher Education, recognizing cost–effective and innovative IT solutions, and named ERP Solutions Developer of the Year (Microsoft 2003). Campus Management's solutions feature comprehensive, configurable modules for the entire student lifecycle and the school's operations.
