

15:34:03 From Georgiana Carson : Marion County uses iReady.
15:35:17 From Shannon Vestal : We are a new Charter and looking into NWEA MAP
15:35:22 From Amanda Chewning : Dixie uses iReady. At the public charter school where I am we use iReady for K-2 and ESGI for PreK-K.
15:38:31 From Jennifer Jimenez : I have use NWEA in my previous school
15:38:51 From Shannon Vestal : Jennifer did you like it? We are a classical school
15:39:14 From Shannon Vestal : We are going to use the data in teams.
15:39:42 From Jennifer Jimenez : Yes it was very user friendly - it gives you their individual goal but keep in mind that the assessment challenges them passed their particular grade level
15:40:18 From Shannon Vestal : Good to know!
15:40:31 From Jennifer Jimenez : They have an individual score and goal - Its for tracking Growth.
15:41:30 From Jennifer Jimenez : Students that are in the higher end of the spectrum would need some enrichment or the class as a whole since some students could see a more challenging questions in multiplication lets say and others would see it in fractions. It depends on their strength.
15:42:04 From Cheryl Goldner : I am online with 4th grade math and I use the daily data to divide the students up on zoom in either enrichment or working with me in small group. I also use the daily data to determine the homework choices I give.
15:42:05 From Shannon Vestal : Great insight! Thank you! I've never seen anything other than Star and iReady
15:43:09 From Jennifer Jimenez : Im in a new charter now - Learning about I-ready for the first time :)
